Searching Standards for Federal Courts:

District Courts index by defendant, plaintiff, and by case number. Bankruptcy Courts usually index by debtor and case number. Most case files created prior to 1999 were maintained in paper format only. Since 2006, all cases are filed electronically. Paper case files may be stored at the courthouse or forwarded to a designated Federal Records Center (<http://archives.gov/frc>), the timeframe determined by the Court. These case files may be obtained via the Court or directly from the FRC.

Case data may be viewed PACER, the online public access program. An account is required, the fee is \$.10 per page; there is no fee if a usage does not exceed \$15.00 in a quarter. For details about PACER see the Appendix or go to <https://www.pacer.gov> or call 800-676-6856.

The copy fee is \$.50; \$.10 if electronic document is printed from terminal. Certification fee is \$11.00 per document and \$21.00 for exemplification, if available. If a case is still available from the individual federal court, the search fee is \$30.00. If the case is at the Archives, the case can be ordered from the court. The fee to retrieve a paper file is \$64.00 for the first box and \$39.00 ea add'l box. Also, the public can order copies direct online from the National Archives. Copies can be delivered by mail, fax, or email. See more information, including fees, at www.archives.gov/research/court-records/.55.

Record Searching Facts You Need to Know

Fees and Record Searching Tips

All courts have one address and switchboard in that the clerk of courts serves both the County and the Circuit Courts. Requesters should specify which court and which division – e.g., Circuit Civil, County Civil, etc. – to direct the request. Most courts have very lengthy phone recording systems.

The profiles of a County and Circuit Court in a county are often combined by record types (criminal or civil) herein. This is because the record searching and indexing are the same – a search includes both court indices.

Fees are set by statute and are as follows as of July 1, 2008: search fee of \$2.00 per name per year; certification fee of \$1.50 per document plus copy fee; copy fee of \$1.00 per page. Nearly all courts follow this schedule. See FL Statute 28.24.

There is no statewide access to trial court data, but quite a few counties offer access to court record data view their own web page.

The Florida Supreme Court recently lifted a 2006 ban against public access to images of court records and outlined guidelines how clerks of court can make records more readily available online, if they so choose. Also in 2006, the Supreme Court had selected Manatee Circuit Court Clerks' Office to site phasing in different levels of access to non-confidential court records over a subscriber-based web site. The program provided to be a success. As a result, the Supreme Court issued Administrative Order No. AOSC14-19 on March 19, 2014. This Order states that any Florida Clerk of Court who wants to provide online access to court records must follow the standards set forth in the Manatee Model. See this Order, including the Access Security Matrix at www.floridasupremecourt.org/clerk/adminorders/2014/AOSC14-19.pdf. Clerks may choose to be more restrictive than the Manatee Model, but they may not be less so.

MyFlorida.com, a vendor site operated the Florida Association of Court Clerks Services Group, offers access to **civil judgment data** for all but 5 counties (Broward, Miami-Dade, Monroe, Orange, and Seminole). They also offer access to many recorded land record documents. See <https://www.myfloridacounty.com/>. A search of the index is free, but registration and fees are charged for images or further data. Subscription fee is \$120.00 per year plus additional transaction fees for copies.

Note that MyFloridaCounty.com has a program available to users who need high-volume access to the ORI database. Contact David Porter (porter@flclerks.com or 850.921.0808) for details.

Florida Recording Offices

Organization:

67 counties, 67 recording offices. The recording officer is the Clerk of the Circuit Court. All transactions are recorded in the "Official Record," a grantor/grantee index. Some counties will search by type of transaction while others will return everything on the index. 57 Florida counties are in the Eastern Time Zone (EST) and the 10 westernmost "panhandle counties" are in the Central Time Zone (CST).

What can be recorded:

Property tax records are located at the Property Appraiser Office.

Real or personal property transactions; notices of lis pendens; judgments entered by a Florida court or any United States court which jurisdiction in this state; military discharges; tax liens and releases thereof; other instruments required or authorized by law to be recorded.

Most counties record marriage licenses, in some counties these records are usually found at county health dept.

Recorded Document Search:

Any name searched in the "Official Records" will usually include all types of liens and property transfers for that name. A majority of Florida counties will perform searches. In addition to the usual \$1.00 per page copy fee, certification of a doc is either \$1.50 or \$2.00.

Searching Tax Lien and UCC Records:

Federal tax liens on personal property of businesses are filed with the Secretary of State. All other federal and state tax liens on personal property are filed with the county Clerk of Circuit Court. Usually tax liens on personal property are filed in the same index with UCC financing statements and real estate transactions. Most counties will perform a tax lien as part of a UCC search. Tax lien copy fee is usually \$1.00 per page.

UCC Financing statements are filed at the state level, and real estate related collateral at the Clerk of the Circuit Court. Few counties will perform UCC searches. Search fees are usually \$1.50 per debtor name per year searched and include all lien and real estate transactions on record. UCC copy fee is usually \$1.00 per page.

Since October 1, 2002, any person preparing or filing a document for recording in the Official Record may not include a Social Security Number in such document unless required by law.

ONLINE ACCESS:

There are numerous county agencies that provide online access to records, but the nearly statewide system MyFlorida.com predominates. MyFloridaCounty.com is maintained and operated by the Florida Association of Court Clerks Services Group.

My Florida offers access to all but 5 counties (Broward, Miami-Dade, Monroe, Orange, Seminole). Data includes Circuit Clerks of Court recorded indexes, including real estate records, liens, judgments, marriages, deaths at <https://www.myfloridacounty.com/ori/index.do>. A search of the index is free, but registration and fees are charged for images or further data, Subscription fee is \$120.00 per year plus additional transaction fees for copies. Note that MyFloridaCounty.com has a program available to users who need high-volume access to the ORI database. Contact 877-326-8689 (message) or fax 850-921-0988 for details.

The Clerk of the Circuit Court cannot place an image or copy of the following documents on a publicly available website for general public display: military discharges; death certificates; court files, records or papers relating to Family Law, Juvenile Law, or Probate Law cases.

Any person has the right to request the Clerk/County Recorder to redact/remove his or her Social Security Number from an image or copy of an Official Record that has been placed on such Clerk/County Recorder's publicly available website.

Assessor and/or Tax Collector Records

All counties provide individualized online access to property tax records.
