Searching Standards for Federal Courts:

District Courts index by defendant, plaintiff, and by case number. Bankruptcy Courts usually index by debtor and case number. Most case files created prior to 1999 were maintained in paper format only. Since 2006, all cases are filed electronically. Paper case files may be stored at the courthouse or forwarded to a designated Federal Records Center (see <http://archives.gov/frc>), the timeframe determined by the Court. These case files may be obtained via the Court or directly from the FRC.

Case data may be viewed PACER, the online public access program. An account is required, the fee is \$.10 per page; there is no fee if a usage does not exceed \$15.00 in a quarter. For details about PACER see the Appendix or go to <https://www.pacer.gov> or call 800-676-6856.

The copy fee is \$.50; \$.10 if electronic document is printed from terminal. Certification fee is \$11.00 per document and \$21.00 for exemplification, if available. If a case is still available from the individual federal court, the search fee is \$30.00. If the case is at the Archives, the case can be ordered from the court. The fee to retrieve a paper file is \$64.00 for the first box and \$39.00 ea add'l box. Also, the public can order copies direct online from the National Archives. Copies can be delivered by mail, fax, or email. See more information at www.archives.gov/research/court-records/.55.

Details on the Court Structure

The **Circuit Court** is the Unified Trial Court in Illinois and has jurisdiction for all matters properly brought before it and shares jurisdiction with the Supreme Court to hear cases relating to revenue, mandamus, prohibition, and habeas corpus. Illinois is divided into twenty-four circuits. Five are single county circuits (Cook, Will, DuPage, Lake, McHenry, and Will) and the remaining eighteen circuits comprise as few as two and as many as twelve counties each. There are two types of judges in the Circuit Court: circuit judges and associate judges. Circuit judges, elected for six years, can hear any kind of case. An associate judge can hear any case, except criminal cases punishable by a prison term of one year or more (felonies).

Probate is handled by the Circuit Court in all counties.

Record Searching Facts You Need to Know

Fees and Record Searching Tips

The search fee is set by the Clerk of Courts Act (705 ILCS 105). The statute sets different pricing court filings and services based on county population tiers (under 500,000, between 500,000 and 3,000,000, and over 3,000,000). The higher the population, the higher the fee. For record searching fees, the statute also gives a minimum and maximum that that can be charged with rules how to reach the maximum. Searching is supposed to be calculated at a per year searched basis. In general, search fees range from \$4.00 to \$9.00 per name per year. Copy fees are generally \$1.00 or \$2.00 for the first page then \$.50 per page for the next 19, then \$.25 per page. Usually, the bottom line is you will find pricing all over the board.

In most courts, both civil and criminal data is on computer from the same starting date. At least 90% of the courts offer public access terminals to look-up docket data.

A document with definition of case types and abbreviations is found at <http://www.cccircuitclerk.com/casetyp.pdf>.

Illinois Recording Offices

Organization:

102 counties, 102 recording offices. The recording officer is the County Recorder, but some counties prefer the name Recorder of Deeds. In some counties the two positions are combined as the County Clerk and Recorder. The county Clerk will handle vital records, voter registration, and assumed names.

Many counties utilize a grantor/grantee index containing all transactions.

Cook County had separate offices for real estate recording and UCC filing until they combined offices June 30, 2001. Since that date only UCC extension, amendments or terminations can be filed on existing UCCs, with exception of UCCs on real estate related collateral which are still filed here. Illinois is in the Central Time Zone (CST).

What Can Be Recorded Recorded Document Search:

All real estate-related documents are recorded along with liens, military discharges, UCC's, and plats. Many counties utilize a grantor/grantee index containing all transactions.

Most counties will not perform real estate searches. Cost of certified copies varies widely but many counties charge the same as the cost of recording the document. Tax records are usually located at the Treasurer's Office.

Searching Tax Liens and UCC Records:

Federal tax liens on personal property of businesses are filed with the Secretary of State. Other federal and all state tax liens on personal property are filed with the County Recorder. Some counties will perform tax lien searches for \$5.00-\$10.00 per name (state and federal are separate searches in many of these counties) and \$1.00 per page of copy.

Financing statements are filed at the state level except for real estate related filings which are filed with the County Recorder. Most counties will perform UCC searches. Use search request form UCC-11. UCC search fee is usually \$10.00 per debtor name/address combination. UCC copy fee is usually \$1.00 per page.

Online Access:

A number of counties offer online access. There is no statewide system, but there is an agency-supported vendor as indicated below.

Thirty-eight counties are connected to the recorded land data subscription service from the Laredo or Tapestry system. The Laredo system is accessed from the Recorder's office web page. Fees are based on a flat rate by usage ranging from \$50 to \$250 per month plus a slight per minute if usage is surpassed. Coverage for multiple counties is offered by the Tapestry program from the same vendor. There is a \$5.95 fee per search and copies can be generated for \$.50 per page. You can pay as you go with a credit card or be billed monthly with a \$25.00 monthly minimum. Visit at <https://tapestry.fidlar.com/> or call 800-747-4600 at ext 271 or 324.

Illinois County Locator

You will usually be able to find the city name in the City/County Cross Reference below. In that case, it is a simple matter to determine the county from the cross reference. However, only the official US Postal Service city names are included in this index. There are an additional 40,000 place names that people use in their addresses. Therefore, we have also included a ZIP/City Cross Reference immediately following the City/County Cross Reference.

If you know the ZIP Code but the city name does not appear in the City/County Cross Reference index, look up the ZIP Code in the ZIP/City Cross Reference, find the city name, then look up the city name in the City/County Cross Reference. For example, you want to know the county for an address of Menands, NY 12204. There is no "Menands" in the City/County Cross Reference. The ZIP/City Cross Reference shows that ZIP Codes 12201-12288 are for the city of Albany. Looking back in the City/County Cross Reference, Albany is in Albany County.
